Hey guys!

My podcast Talk Is Jericho has done over 180 million downloads and my "paranormal" shows are a big part of that success. My fans enjoy hearing tales of ghosts, sasquatches, UFO's and conspiracies, so when I decided I wanted to do a show on Ouija Boards, I knew there was only one man for the job: Robert Murch.

You see, the paranormal community is a tight knit one and no matter who I asked who the best in the Ouija field was, they all answered with Murch's name.

When Robert and I finally met to do my show, I could see why. He was personable, knowledgeable, funny, an eloquent speaker and didn't take himself or the subject too seriously. He realized that the topic of Ouija Boards has its detractors and supporters and conducted his interview to appeal to both. I enjoyed having him on my show and my fans seemed to have agreed, as his episode has already done over 400k downloads to date.

So, if you're looking for the best in the world at what he does, vote for Robert Murch...he's going to make Ouija Boards great again!
