

My name is Anita Martin-Landry. E.C. Reich is my 2x great grandfather.

I met Bob Murch through Ancestry.com while I was researching the Reiche family. We have been in contact since January 2014.

His knowledge of the Ouija and the families involved in its history are amazing. He has researched for 20 years and has shared his findings. He not only has been in contact with all the descendants from the families and company involved but also has traveled in the United States and other countries.

I was able to share a photo of E.C. with him and he was able to make E.C. and family real, not just names.

I look forward to his future work and give my full support to it. Whatever it is, he will put all his effort and knowledge into it to make it a success.

Sincerely,
Anita Landry
